Computer Architecture
CS301
Course Project

Question 1:
Static instruction: 50
Dynamic instruction: 28

Question 2:
   a) Count without conditional execution involved: 48
   b) Count with conditional execution involved: 50
      Count conditional execution: 2
   c) Count of code written with thumb instruction: 50

Question 3:
   a) Code coverage: 58% of 53 instruction
   b) Code execution time: 5.083 microsec.
   c) Number of calls executed: 50
